<u>Dust:</u> Met with a fair demand. Clean well made types sold readily at around last levels. Rest were little easier with a fair weight remaining unsold following lack of interest. Cleaner CD's were a strong feature.

<u>Comment:</u> A limited weight of the well made good liquoring descriptions offered were keenly sought after by all sections of the market and sold at attractive levels following competition. Others met with only selective interest at easier rates and suffered fair withdrawals. Plainer types were mostly neglected.
